

Buyer's Guide to Turnkey Voip Phone Solution

Introduction

Communication is everything in the modern world of business. The right phone service can create an aura of professionalism that helps to win over clients. **Voice over Internet (VOIP)** is perhaps the most flexible system when it comes to getting the best phone service for your business. The service can be scaled to meet company's changing needs, makes your company appear larger and can handle customers around the world with ease. Unlike traditional landlines, cloud phone services are monitored 24/7 and the transmission signals can be rerouted in a matter of seconds to ensure that you never miss or drop a call due to technical malfunction.

Benefits of Cebod Telecom VOIP Phone System over Traditional Phone System!

Crystal Clear Sound Quality

IP phones provides the advantage of carrying crystal-clear conversations regardless of the physical distance between the call(s) and their traditional carriers used.

Reliable Service

Best and most cost-effective phone solution and completely reliable as your Internet connection, it always give the maximum in terms of top-notch unified communication.

Maximize Savings

Cebod Telecom helps save over 80% on phone bills as compared to any local carrier. Coming with premium in-built features at no additional costs, VoIP is the new frontier in unified communication.

Trustworthy and Expandable

VOIP solutions offer flexibility and scalability that fits every telephony needs of a company, regardless of its size and type.

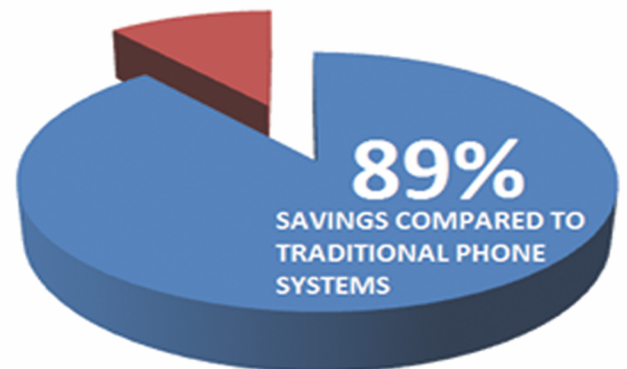

Work Anywhere, Anytime

Use smartphone, tablet or laptop to work anywhere and anytime. Bring your own device(BYOD) and transfer calls, host conferences, send/recieve fax, track calls, route calls based on time and much more.

How much does Cebod Telecom service cost?

The cost of the business phone system is related to number of phone lines purchased. We charge for every phone line purchased, irrespective of the number of users on each line. This sets us apart from our competitors who charge extra for every user or extension.

We offer **plans as low as \$8.99/user/mo.*** with all-inclusive phone features needed for your business for every phone line, including voicemail, fax to inbox, unlimited user extensions, auto attendant, conferencing ,unlimited calling anywhere in the US and Canada.

Save big on phone bills every month.

Move to Cloud Phone Service, Secure a Winning Edge.

* Price based on 3 year contract for the phone lines
