

HOW VOIP HELPS

YOU UPGRADE YOUR PIZZA DELIVERY

System without Breaking Banks

1

MAKE THE CUSTOMER FEEL IN CHARGE BY AUTOMATING CALLS

VoIP offers you a range of automated features to put your calls on auto-pilot mode. Features like auto-attendant puts the control in the hands of customers, making them feel like a boss.

2

MAKE AND RECEIVE CALLS FROM MULTIPLE DEVICES WITH ZERO CHARGES

Being available across multiple devices, VoIP allows you, your delivery drivers, and the customers to make and receive calls at anytime from anywhere using any device, without paying any call charges.

3

UTILIZE CALL WAITING TIME FOR UPSELLING

VoIP gives you the option to add promotional messages like special offers and discounts to tempt customers to upgrade their orders. It helps trigger the taste buds of customers and lures them to take action now.

4

OFFER EXACTLY WHAT YOUR CUSTOMERS ARE LOOKING FOR

VoIP allows you to store customer data, like previous issues they faced, their purchases, etc. Businesses can use this information to tailor the customer interactions and meet their needs, making them feel more valued.

5

RESPOND AT LIGHTNING SPEED WITHOUT ANY BREAKDOWN

With VoIP's advanced call forwarding options, your customers will never wait longer to connect with you.

6

LEVERAGE BUSY HOURS AS WELL AS OFF HOURS

One of VoIP's unique tools is custom scheduling. It hands you the power of time-based call routing. It responds to customers even at your busiest hours and connects you with them directly during your free hours.

7

MAKE REAL-TIME CHANGES TO YOUR OFFERS WITHIN SECONDS

In a pizza business, nothing is constant. You implement changes frequently, and call your customers again and again. VoIP is a well-known online call management interface. It lets you make real-time changes to inbound calls.

8

NEVER MISS A SINGLE CALL

With VOIP phone service, you will never miss a single call. As all your data-connected devices are in place to receive multiple calls at a time, you leave no stone unturned when it comes to responding to customers.
